

J56

“The true mark of civilization is the ability to chill one’s libations from insufferable climates.” No one ever actually said that, but it sounds like a perfectly reasonable historical quote all the same. That’s why our J56 moc croc leather chest is designed to keep drinks cold no matter how high the mercury rises. A glass ice bucket wrapped in canvas and trimmed with leather, accompanied with brass ice tongs also wrapped in leather, all supported atop a stained mahogany tray, makes the J56 the ideal accessory for your next civilized mixer.
