

J72

It's the seemingly demure, quiet side tables you need to watch out for. Take the J72, for example: comprised of medium-density fiberboard (MDF), and finished with black lacquer for a glossy touch, the J72 Side Table is topped with a yellow eggshell lacquer tray. Elegant enough, right? But don't judge this table by its cover – the underside is finished with decadent black velvet because the table top is removable and can be used as a tray. This soft touch means the tray can be placed anywhere your heart desires without tarnishing other surfaces.
